Hi Leslie - I'm not sure if you already have clarification about your question below, but as set forth in the May 15, 2008 cover letter and corresponding index delivered with the CD labeled AWC PDFs 1-3852 (copies attached for your convenience), these materials are part of Dr. Fisher's considered materials.

Sundye: A question has come up about certain of the reliance materials and which expert they belong to. One of the CDs transmitted on May 15<sup>th</sup> is entitled AWC PDF's 1 – 3852. It is not immediately apparent which of the various experts whose reliance materials your transmittal indicated were contained on the CD these Ark. Water Commission documents belong to.

Clarification would be appreciated.

Thanks
